

Brandon Mizroch received his MD/MBBS from the University of Queensland/Ochsner Clinical School Program in November of 2016. Since taking over as the PEP/PrEP Provider Outreach Specialist at the Louisiana Department of Health in August, 2017, he has worked with hundreds of doctors statewide on HIV prevention best practice. From grand rounds presentations at LSU-Shreveport Hospital, to state-wide symposium conferences, to one-on-one counseling encounters at dozens of clinics all over Louisiana, he has helped spread awareness and education on HIV prevention through evidence-based care.
